GROOMING

One of DOGSVILLE'S grooming stations

Grooming is an important part of life for all dogs. It is essential to keep your pet clean and well brushed to

make the time you spend together enjoyable for both you and your dog. As an aid to professional grooming, and for the continued comfort of your pet, always check for matter stuck in their coat, especially hard to reach areas such as inside legs and foot pads. Check ears and clean them once per week to decrease the possibility of ear infection.

Dogsville has trained and experienced staff and we would like to help you enjoy your relationship with your dog. You can benefit from our experience so that your "best friend" can enjoy a healthy and happy life. Dogs are very special animals and require a lot of interaction. Care and attention to grooming will not only make your pet happy, but will do wonders for your own well being!
